QUICK START

WIREFREE MATE

Turn on/off a WTX. Press the power button once to turn on the transmitter. Hold for 2 seconds to turn it off.

Hold the knob and turn to clockwise direction to turn it on. Keep turning to set the volume higher. Turn it anti-clockwise direction to set the volume lower. Turn it to the end to power off. Quick turn it "on-off-on" to pair a new transmitter or a QUEST detector.
